PROJECT

Portfolio Web

- Hosted online at <https://snakexrnt.github.io/portfolio-ethan>. It contains a brief example of my work experience, skills, and projects in an easy-to-read format. i also ade it mobile-friendly (Responsive)

IndoEats Web

- IndoEats is a mobile-friendly website built with HTML and CSS that allows users to search for and find Indonesian food and the places that sell them. It is a great resource for anyone who wants to learn more about Indonesian cuisine or find the best places to eat Indonesian food.
<https://snakexrnt.github.io/indoeats>

Warehouse manager

- Made using python tkinter. Have a function to export as CSV or PDF. PDF that was generated can be directly sent to an email (have SMTP). Can be pulled from
<https://github.com/SnakeXrnt/Tkinter-WarehouseApp>
